ABOUT ME

Results-driven and detail-oriented Software Developer with approximately three years of hands-on experience in developing desktop services, mobile applications, backend APIs, and UI screens. Skilled in full-stack development, with proficiency in C#, TypeScript, and JavaScript. Adept at collaborating with cross-functional teams to deliver high-quality products within project timelines. Demonstrated expertise in troubleshooting, debugging, and optimizing code for peak performance. Well-qualified as a Full Stack Developer with extensive knowledge of various programming utilities and languages. Familiar with both backend and frontend development requirements and capable of handling any part of the development process with ease. A collaborative team player with exceptional technical skills.

SKILLS

Technical Skills:

Languages: C#, TypeScript, JavaScript, SQL, PLSQL

Frameworks/Libraries: .NET Core, Angular, jQuery, Entity Framework, Flutter, ADO.NET

Technologies: HTML, CSS, Bootstrap, JavaScript, AJAX, ASP.NET (Core 5), Web API

Databases: SQL Server

EXPERIENCE

Software developer | DMS Department, Optimiza | Amman- Jordan | Sep.2021-present

As a Software Developer in the Document Management Systems (DMS) department at Optimiza, I played a key role in designing, developing, and deploying robust software solutions tailored to enhance document management processes. My responsibilities spanned backend API development front-end screen, desktop services, and mobile application.

Key Responsibilities:

- Designed and built a mobile application to provide on-the-go access to DMS functionalities, improving user accessibility and productivity.
- Created and managed backend APIs to facilitate secure and efficient communication between different components of the DMS.
- Developed intuitive and user-friendly UI screens, focusing on enhancing user experience and interface consistency.
- Collaborated closely with cross-functional teams, including product manager, and QA engineers, to deliver high-quality products within established project timelines.
- Wrote clean, efficient, and well-documented code using C#, TypeScript, and JavaScript, following best practices and coding standards.

EDUCATION

Zarqa university

2015-2021

Bachelor in software engineering
